

## PT-D3500 Projector Dust Filter For Panasonic Projector General D3500E D3500U

Our Product Introduction

for more products please visit us on [projectorlamp-replacement.com](http://projectorlamp-replacement.com)

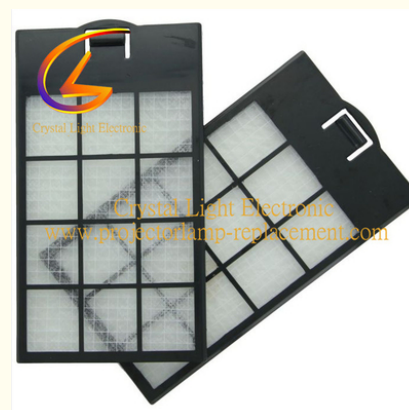

### Basic Information

- Place of Origin: CHINA
- Brand Name: Panasonic
- Model Number: PT-D3500
- Minimum Order Quantity: 1-1000
- Price: Negotiable
- Packaging Details: carton packing
- Delivery Time: 1-2 day
- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 5000 per

### Product Specification

- Product NameModels: Filter
- Warranty Period: 180 DAYS
- Highlight: PT-D3500 Projector Dust Filter,  
Panasonic Projector Dust Filter,  
D3500E Panasonic Projector Filter

## Product Description

### PT-D3500 filter for Panasonic projector General D3500E D3500U Projector Filter

#### Product Parameter

Part Numbers	PT-D3500 filter
Fittable projector models	for Panasonic projector General PT-D3500, PT-D3500E, PT-D3500U, PT-D4000, PT-D4000E, PT-D4000U. PT-D3500 PT-D4000
Packing	Carton box with foam
Minimum Order quantity	10 piece

#### Points to note

Dust removal is an essential maintenance task, especially for LCD projectors. Since the L-board of the projector is fully heat-dissipated, there is usually a special fan to cool it with a flow rate of tens of liters of air per minute. The high-speed airflow may also entrain tiny dust particles after passing through the dust filter. They rub against each other to generate static electricity and are adsorbed to the system, this will have an impact on the projected image.

Therefore, it is very important to prevent dust in the environment where the projector is used. Smoking must be strictly prohibited because smoke particles are more likely to be adsorbed in the optical system. Clean the dust filter at the air inlet frequently, at least once a month. Always make sure the ventilation filter is properly covered and clean the projector ventilation filter every 50 hours of use.
