#### Zoom and Focus

Projectors may offer manual or motorized zoom and focus options. These features allow you to adjust the size of the projected image and the focus to ensure optimal clarity.

#### Precautions

**Access the Lamp Compartment:** Locate the lamp compartment on your projector. The exact location may vary depending on the projector model. Usually, it is accessible from the top or bottom of the projector or through a side panel. Remove any screws or latches that secure the compartment.

**Remove the Old Lamp:** Carefully detach the old lamp by following the instructions provided in the user manual. In some cases, the lamp may be held in place by screws or clips. Gently release the lamp and disconnect any cables or connectors attached to it.

**Install the New Lamp:** Take the new lamp and align it correctly with the lamp housing. Make sure it fits securely and matches the connections of the previous lamp. Reconnect any cables or connectors that were disconnected during the removal process.

**Secure the Lamp Compartment:** Once the new lamp is in place, secure the lamp compartment by reattaching any screws or latches that were removed earlier. Ensure that the compartment is sealed properly to prevent any dust or debris from entering.
