Product Description

GT60LP For NEC Projector Lamp DUKANE Image Pro 9060 GT5000 GT6000

Product Parameter

Part Numbers	GT60LP
Fittable projector models	For NEC Projector Lamp DUKANE Image Pro 9060 GT5000 GT6000
Bulb Type	275 W
Life time	3000 -5000(Hours)
Packing	Carton box with foam
Minimum Order quantity	10 piece

Advantage

projectors a versatile and effective tool for displaying visual content in various settings

Product Information

The NEC GT60LP replacement lamps are compatible with GT5000 GT6000 projectors. The working hour time is: 3000-5000 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

Precautions

Ensure Safety: Before starting the installation process, make sure the projector is turned off and has cooled down sufficiently. Unplug the projector from the power source to avoid any electrical accidents during the installation.

Allow Lamp to Cool: Projector lamps generate heat during operation. It is crucial to allow the lamp to cool down completely before attempting to replace it. This prevents the risk of burns or damage to the new lamp.

Use Proper Tools: Prepare the necessary tools for the installation, such as a screwdriver or lamp removal tool, as specified in the user manual. Using the correct tools will ensure a secure and safe installation.

Access the Lamp Compartment: Locate the lamp compartment on your projector. The exact location may vary depending on the projector model. Usually, it is accessible from the top or bottom of the projector or through a side panel. Remove any screws or latches that secure the compartment.
