Product Information

The Benq 5J.JKG05.001 replacement lamps are compatible with MX707 MW707 projectors. The working hour time is: 3000-4500 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

Keystone Correction

Keystone Correction is a correction function used to correct keystone distortion in the projected image caused by the projector not being perfectly aligned with the screen. It ensures rectangular image projection even if the projector is placed at an angle.
