Product Description

SP.75A01GC01 For EIKI Projector Lamp EK-610U EK-611W EK-612X EK-610UA EK-610U

Product Parameter

Part Numbers	SP.75A01GC01
Fittable projector models	For EIKI Projector Lamp EK-610U EK-611W EK-612X EK-610UA EK-610U EK-611W EK-612X
Bulb Type	465 W
Life time	3000 -5000(Hours)
Packing	Carton box with foam
Minimum Order quantity	10 piece

Product Information

The EIKI SP.75A01GC01 replacement lamps are compatible with EK-610U EK-611W EK-612X projectors. The working hour time is: 3000-5000 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

After-sales service

When it comes to projector lamp after-sales service, we provide comprehensive support to ensure customer satisfaction.

Warranty

When installing a projector lamp, there are several important considerations to keep in mind. Here is a brief guide to the precautions and steps involved in installing a projector lamp:

Ensure Safety: Before starting the installation process, make sure the projector is turned off and has cooled down sufficiently. Unplug the projector from the power source to avoid any electrical accidents during the installation.

Refer to the User Manual: Consult the user manual provided by the projector manufacturer for specific instructions on lamp replacement. The manual will provide detailed information on the lamp type, installation procedure, and any additional precautions specific to your projector model.

Allow Lamp to Cool: Projector lamps generate heat during operation. It is crucial to allow the lamp to cool down completely before attempting to replace it. This prevents the risk of burns or damage to the new lamp.

Use Proper Tools: Prepare the necessary tools for the installation, such as a screwdriver or lamp removal tool, as specified in the user manual. Using the correct tools will ensure a secure and safe installation.
