Product Description

UC.JRN11.001 For ACER Projector Lamp H6522ABD H6522BD V6510

Product Parameter

Part Numbers	UC.JRN11.001
Fittable projector models	For ACER Projector Lamp H6522ABD H6522BD V6510
Bulb Type	245 W
Life time	3000 -5000(Hours)
Packing	Carton box with foam
Minimum Order quantity	10 piece

Product Information

The ACER UC.JRN11.001 replacement lamps are compatible with H6522ABD H6522BD V6510 projectors. The working hour time is: 3000-5000 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

Replacement Parts

In the event that a projector bulb needs replacement, manufacturers usually provide original replacement bulbs that are compatible with their respective projector models. These replacement bulbs are designed to ensure optimal performance and compatibility.

Bulb warranty

Refer to the User Manual: Consult the user manual provided by the projector manufacturer for specific instructions on lamp replacement. The manual will provide detailed information on the lamp type, installation procedure, and any additional precautions specific to your projector model.

Allow Lamp to Cool: Projector lamps generate heat during operation. It is crucial to allow the lamp to cool down completely before attempting to replace it. This prevents the risk of burns or damage to the new lamp.

Use Proper Tools: Prepare the necessary tools for the installation, such as a screwdriver or lamp removal tool, as specified in the user manual. Using the correct tools will ensure a secure and safe installation.

Access the Lamp Compartment: Locate the lamp compartment on your projector. The exact location may vary depending on the projector model. Usually, it is accessible from the top or bottom of the projector or through a side panel. Remove any screws or latches that secure the compartment.

Remove the Old Lamp: Carefully detach the old lamp by following the instructions provided in the user manual. In some cases, the lamp may be held in place by screws or clips. Gently release the lamp and disconnect any cables or connectors attached to it.
