Product Information

The Stage lights 928197205314 replacement lamps are compatible with 20R MSD Platinum 20 R 1CT 8 25918-4 259184 projectors. The working hour time is: 3000-4800 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

Connect the video source

Depending on your setup, connect the video source to the projector using an appropriate cable. Common options include HDMI, VGA, or DisplayPort cables. Connect one end of the cable to the video output port of the source device (such as a laptop or DVD player) and the other end to the corresponding input port on the projector.

Bulb warranty

Install the New Lamp: Take the new lamp and align it correctly with the lamp housing. Make sure it fits securely and matches the connections of the previous lamp. Reconnect any cables or connectors that were disconnected during the removal process.

Secure the Lamp Compartment: Once the new lamp is in place, secure the lamp compartment by reattaching any screws or latches that were removed earlier. Ensure that the compartment is sealed properly to prevent any dust or debris from entering.

Reset Lamp Timer: After installing the new lamp, it is essential to reset the lamp timer on the projector. This step varies by projector model, so refer to the user manual for instructions on how to reset the lamp timer.

Test and Calibrate: Turn on the projector and verify that the new lamp is functioning correctly. If necessary, adjust the projector settings to optimize the image quality and brightness.

Most projector lamps come with a warranty. During the warranty period, if a bulb malfunctions or any defects are encountered, we will usually offer to replace or repair the bulb free of charge. Warranty duration varies by model.
