#### Product Parameter

Part Numbers	55084
Fittable projector models	Suitable for stage projector lamp 55084
Bulb Type	470 W
Life time	3000-5000(Hours)
Packing	Carton box with foam
Minimum Order quantity	10 piece

#### Product Information

The Stage lights 55084 replacement lamps are compatible with 55084 projectors. The working hour time is: 3000-5000 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

#### Connect the power

Plug in the power cord of the projector into a power outlet. Ensure that the power source is compatible with the projector's requirements.

#### Bulb warranty

When installing a projector lamp, there are several important considerations to keep in mind. Here is a brief guide to the precautions and steps involved in installing a projector lamp:

**Refer to the User Manual:** Consult the user manual provided by the projector manufacturer for specific instructions on lamp replacement. The manual will provide detailed information on the lamp type, installation procedure, and any additional precautions specific to your projector model.

**Allow Lamp to Cool:** Projector lamps generate heat during operation. It is crucial to allow the lamp to cool down completely before attempting to replace it. This prevents the risk of burns or damage to the new lamp.

**Use Proper Tools:** Prepare the necessary tools for the installation, such as a screwdriver or lamp removal tool, as specified in the user manual. Using the correct tools will ensure a secure and safe installation.

**Access the Lamp Compartment:** Locate the lamp compartment on your projector. The exact location may vary depending on the projector model. Usually, it is accessible from the top or bottom of the projector or through a side panel. Remove any screws or latches that secure the compartment.
