#### Product Information

The Acer MC.JLS11.001 replacement lamps are compatible with ACER p5227 projectors. The working hour time is: 3000-5000 hours. After replacing our new lamps, the projector performance can be the same as the new original one and improve the effect of projection, and make you feel comfortable while using.

#### Zoom and Focus

Projectors may offer manual or motorized zoom and focus options. These features allow you to adjust the size of the projected image and the focus to ensure optimal clarity.

#### Bulb warranty

**Install the New Lamp:** Take the new lamp and align it correctly with the lamp housing. Make sure it fits securely and matches the connections of the previous lamp. Reconnect any cables or connectors that were disconnected during the removal process.

**Secure the Lamp Compartment:** Once the new lamp is in place, secure the lamp compartment by reattaching any screws or latches that were removed earlier. Ensure that the compartment is sealed properly to prevent any dust or debris from entering.

**Reset Lamp Timer:** After installing the new lamp, it is essential to reset the lamp timer on the projector. This step varies by projector model, so refer to the user manual for instructions on how to reset the lamp timer.

**Test and Calibrate:** Turn on the projector and verify that the new lamp is functioning correctly. If necessary, adjust the projector settings to optimize the image quality and brightness.
